

Clinical Trial Stem Cell Infusion in Patients with Ischemic cardiOmyopathy (SCIPIO)

Presenter - Roberto Bolli, MD

PI - Roberto Bolli MD and Piero Anversa, MD

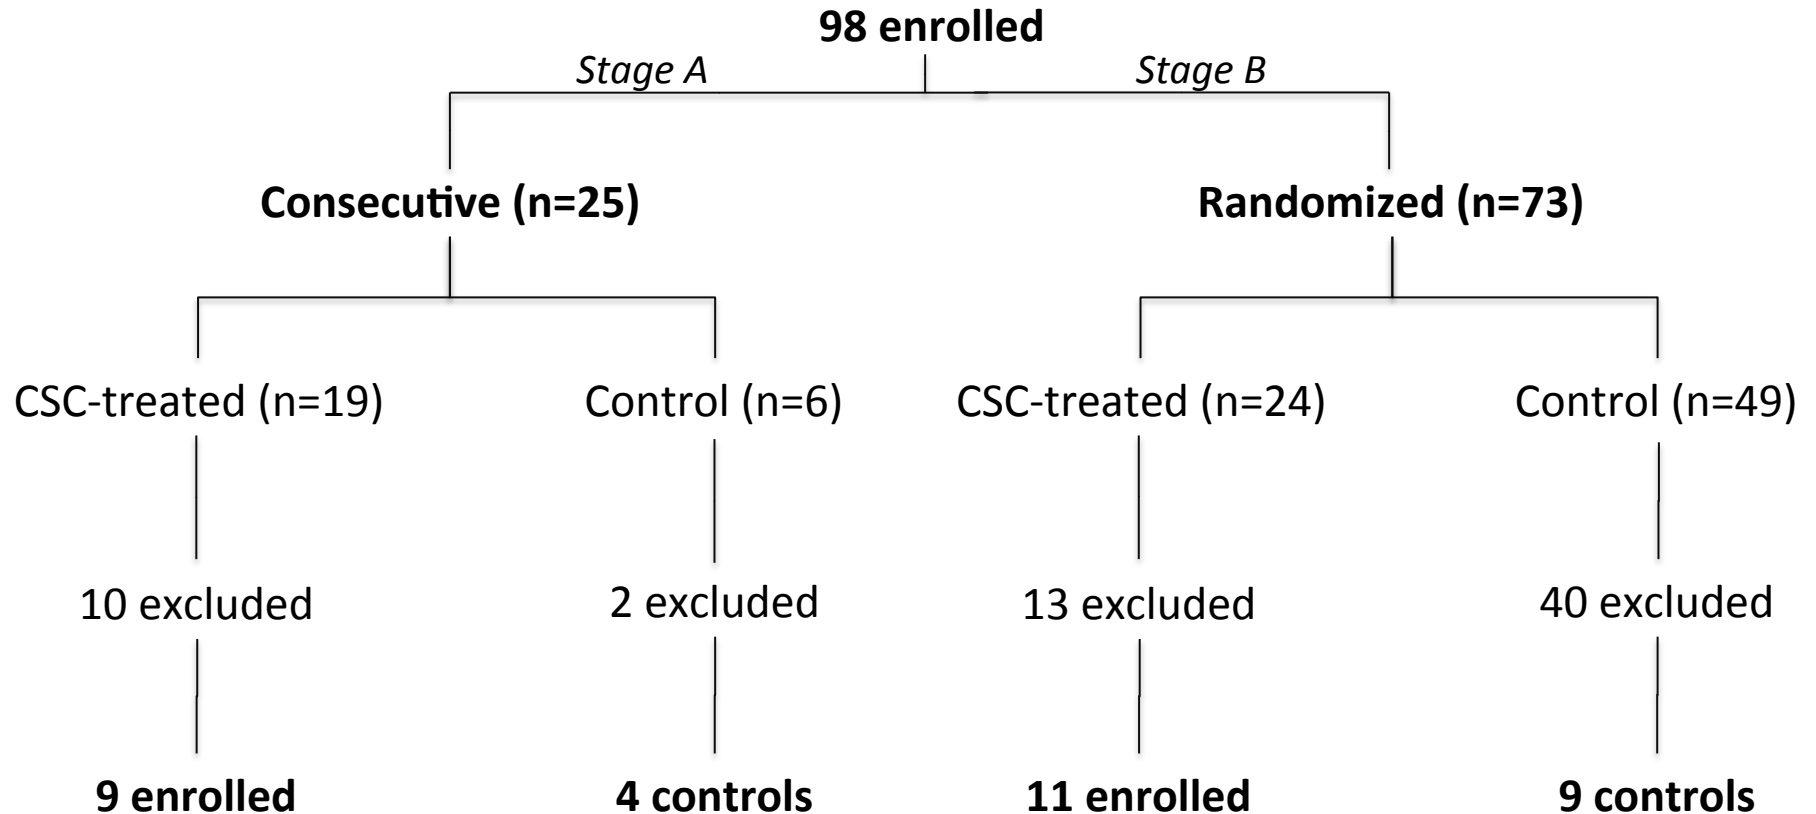

Sponsor - None

	VASCULAR, NON-CARDIAC	CARDIAC
Target population	Critical limb ischemia, Claudication Atherosclerosis, Restenosis Pulmonary	Acute MI Chronic angina Congestive heart failure
Progenitor cell, biologic	Autologous resident c-kit-positive stem cells	
Delivery method	Intracoronary	
Study Phase	1	
Primary objective	Safety and feasibility	
Design	Stage A - consecutive enrollment, Stage B - randomized, control, open-label trial	
# Clinical sites	Single center	
www.ClinTrials.gov	NCT00474461	

Clinical Trial - **SCIPIO**
Target enrollment - 20 CSC-treated, 20 controls
Start date, End date February, 2009 - present

Study Flow and Current Enrollment

Status: Completed enrollment
